

Home Dreams: When to Renovate, Move On or Just Start Over!

Have you ever looked around at the place you live call home and thought this could be a great place if I could just (fill-in the blank). Most of us have no idea where to start the conversation. We certainly don't know if it is a good idea or simply an unrealistic dream! Architects are uniquely suited to explore your dreams and visions for a fantastic home. As Architects we can evaluate the smallest to grandest visions for their practicality, cost implications and overall design potential. In this presentation we will provide you with some basic benchmarks to consider when evaluating the feasibility of your dream home. Along the way we will show you some wonderful examples of other dreamer's completed projects and their unique and sometimes funny stories of how they got started down this path.
