

## **A.R.E. Seminar: Call for Presenters**

The 2014 **A.R.E. Preparation Seminars** are in full swing! These Saturday seminars are a great resource for intern architects to learn about exam topics from industry professionals. We need the help of area professionals (like you!) to make this program a success, so please consider spending a few hours of your time to help others achieve licensure.

We still have a few openings left to fill for our June and October seminars!

### **Saturday, June 14<sup>th</sup>: Lawrence Tech, Southfield**

**9am-12:30pm:** Building Systems Presentation: Lecture and multiple choice (it would be great to get a mechanical/electrical engineer or an architect heavily involved in this area)

#### **Lunch Break**

**1:00pm – 2:30:** Building Systems + Structures Vignette (session lead by architect)

**2:35pm-4:30pm:** Structures II: practice problems + Q&A session (architect with engineer assistance).

### **October, date TBD: Lansing**

--Site Planning & Design

--Contract Documents and Services

--Building Design & Construction Systems

#### **Prospective Speaker Info:**

We have sample presentations from previous years that presenters are welcome to use as a starting point, but they are certainly welcome to change or update the presentation however they see fit or use their own material. [Matt Guinta](#), the state IDP coordinator will contact the presenters before the Seminar to answer any questions and review presentation content. Presentations will be sent to [Christine@aiami.com](mailto:Christine@aiami.com) the week before the Seminar and attendees will be emailed the presentation to use as a study resource after the event.

Presenters do not need to be ARE/NCARB experts, they should be comfortable enough with the information to both present on the topic and answer questions. Ideally, it would be beneficial if they have taken the ARE 3.0 or 4.0.

Although we always appreciate volunteers, we do value our presenters' time and we can offer them an honorarium stipend for their time and effort (as well as mileage).

If this sounds like something you would be interested in doing we would really appreciate your help! Please let [Christine@aiami.com](mailto:Christine@aiami.com) know if you have questions or if you would like more information about the program and future Seminar dates!
