

Albert Kahn Associates Inc. is inspiring people with great places. Our award-winning diverse and leading-edge designs and concepts have shaped many industries around the world for the last 123 years. We are looking for future leaders, who share our values of Integrity, Professionalism, Respect, Pride, and Passion, to join our team as we continue to bring the most creative and innovative concepts to the clients we serve.

Our Detroit office is seeking a **Healthcare Planner/Architect** to join the architectural and design group.

Responsibilities

- Role will span from healthcare planning and design to project development
- Coordinate project team efforts to facilitate effective execution of project design and delivery of construction documents
- Develop creative design concepts for projects, and expand on concepts of others
- Remain current with trends and research in healthcare planning and design, including green design, patient safety, and evidence-based design principles
- Make presentations to client management and boards

Qualifications

- Professional degree from an accredited program
- Architectural Registration desired or clarity of path to achieve registration required
- LEED credentialed preferred
- 2+ years of healthcare design and planning experience required
- Proficient with Revit, CAD, and/or BIM and other presentation media
- Clear knowledge of healthcare trends and code/regulatory requirements and their application
- Ability to work in integrated project teams

Please email resume to natasha.marsaw@akahn.com.
