

## Architect Rigoberto Barona Charter presentation

Architecture is my passion, my life, the beautiful way of understanding how wonderful, worthy and great privilege that human beings have created. Pleasant surroundings, comfortable and safe spaces, are just some of the exciting opportunities that this beautiful profession brings.

As a professional I seek a work environment where they can continue to grow with discipline, motivation and desire to know that every day is a unique opportunity to achieve those objectives. With these expectations I speak to you, with the firm conviction of being the professional that you are looking for. **example of my commitment and passion**
