

Project Designer

TMP Architecture, Inc.
Bloomfield Hills, MI

We are seeking Project Designers with 8+ years of experience focused in the planning, design and management of educational projects for both the K-12 and College/University markets. Candidates must have strong design and communication abilities and have experience collaborating with educational staff.

Desired skills include experience and interest in projects for education; talent and comfort with presenting to clients; proficiency in AutoCAD/Revit; and must possess a professional degree/registration.
