

Project Manager – Building Envelope

THP is seeking to hire a full-time licensed architect or engineer and project manager for our Cincinnati Office. Projects include new construction and restoration in all types of building envelope systems including below grade waterproofing, masonry wall systems, curtainwall, storefront, rainscreen wall systems, skylights, and roofing systems.

Responsibilities

- Plan, develop, and coordinate complex building envelope and waterproofing projects.
- Conduct or direct assessments of existing building envelope systems.
- Act as primary contact for building owners and clients.
- Perform analysis, design, and detailing of wall systems.
- Direct the work of staff members and be responsible for all phases of design.
- Participate in business development activities.
- Act as a mentor to other employees.

Qualifications

- Bachelor or Master of Architecture, Civil (Structural) Engineering, or Architectural Engineering.
- 7-10 years' experience in the design of various building envelope systems.
- AIA or P.E. Registration.
- LEED AP BD+C or LEED AP O+M accreditation a plus.
- Excellent verbal and written communication skills.
- Experience or knowledge of Revit is a plus.
- Job requires a comfort with work at heights.

We offer an excellent benefits package including company-paid medical and dental insurance, a matching 401(k) plan, and a collaborative, energetic work environment. THP is an Equal Opportunity Employer.
