

# Interior Designer

Berkley, Michigan  
Job ID: 31651

## **Your Opportunity:**

Where does Architecture stop and Interiors begin? A question which Stantec believes has profound possibilities. Keeping the physical world at bay and working with the structural realities of the built- certainly fall in the sphere of the former, while reciprocally from the inhabitant's skin working outwards squarely lands to the later. Where they interlace and influence each other is where the possibilities emanate.

Stantec seeks to hire a dynamic Interior Designer to join our Berkley, MI Architecture team. We are looking for a Senior Designer with a focus on shaping environments; someone who acts as a mediator to bring voice and amplify a position where interiors is more than just picking color- but rather evidences its interdisciplinary nature: a dialogue formed by architecture, art, graphics, fashion, film, engineering, history, literature, photography, philosophy, psychology, product design, and textiles; someone excited to explore the intangible in order to productively shape the tangible; a voice that can ensure the scale of the grand gesture to subtle nuances that people experience in interior space is crafted.

Be a part of our creative team, and help forge our culture.

## **Your Duties:**

You are the ideal candidate if you can:

- Develop designs with conceptual + critical thinking skills leading to a high level of interior design quality
- Create sketches, diagrams, and other visual formats including 3D representations in order to express the design intent and communicate to project team, client, and building user groups
- Support business development activities, including marketing proposals, interviews, conference attendance, etc.
- Knowledge of space planning, block planning, and adjacencies in coordination with building program
- Evaluate and select interior systems, materials & finishes and palette
- Implement sustainable design principles into interior materials & finishes and furniture
- Ensure that interior design intent is maintained through documentation and construction
- Perform FFE service tasks from design through Bid and handle coordination with specific client and project needs
- Present the interior design to stakeholders (client groups and project teams)

## **Your Capabilities and Credentials:**

We require:

- Bachelor's Degree in Interior Design or Interior Architecture
- NCIDQ certificate, preferred
- An established resume and portfolio
- A minimum of 3 years of experience in commercial interior design practice
- Interior design experience in education, workplace/commercial design preferred
- LEED AP, preferred
- Proficiency in use of Sketchup, Revit, AutoCAD, Adobe Creative Suite
