This week continues our series of profiles on AIA Michigan Committees. I know many of you have thought about joining one or more of the AIA Michigan committees, but didn't know where to get more information or how to join. There will be a Monday Minutes profile on a different committee each week to give you more information. Read below for this week's committee profile on the Educational Facilities Innovation Conference Committee.

AIA Michigan Committee Spotlight: The Educational Facilities Innovation Conference Committee

The AIA Michigan Educational Facilities Conference is held to provide educators, school board members, educational planners, school administrators, architects, engineers, construction managers,

and other interested professionals with the latest available information which will assist them in planning, designing and constructing educational facilities.

The Education Facilities Committee establishes a theme for the conference based on trends and new information in the educational profession. They arrange for speakers for the conference as well. This Committee is unique in that the conference is held in conjunction with the State of Michigan so they are exposed to a wider range of perspectives and ideas. If this committee interests you, check out last year's [program](#) and contact the office.

Reminder: Important Public Hearing Concerning Proposed Continuing Education Changes!

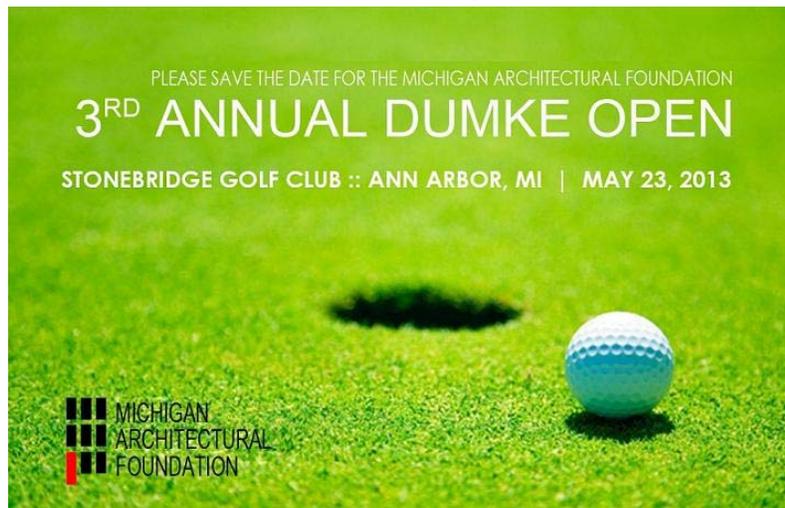

A public hearing regarding the proposed changes on the Architect's Continuing Education Rules is set for Thursday, **March 14, 2013**, 9:00 am in Okemos, MI.

It has been speculated that the Michigan Board of Architects on Continuing Education plans on submitting changes to the rules based on NCARB recommendations. Proposed changes include: 12 hours HSW calendar year (not per our two year renewal cycle), and they will not carry forward into next year. If these rules pass in October 2013, they will likely go into effect in 2014.

All licensed architects are strongly encouraged to attend. This proposed change will directly affect each and every licensed professional in the state and thus deserves our attention. Please note that attendance at the meetings will not entail public speaking, but both will be informative and will provide the opportunity to be heard if you desire.

If you need more information, please call the office or email aiami@aiami.com.
