

Firm Overview

The combination of Diekema Hamann’s background, highly motivated professional staff, and overall firm capabilities results in a team which offers you the following:

- A single source for architectural, interior design, mechanical and electrical engineering services, and commissioning services
- A background in design and technical expertise
- A history of excellent long term working relationships with owners, contractors, and sub-consultants
- A solid track record of bringing projects of all sizes to successful completion within budget and on schedule

1916

Incorporated in
1977

Diekema Hamann Architecture & Engineering has experience in providing comprehensive design and engineering services for a broad range of projects. Our firm's reputation is built on our successes in a small number of focused markets, with both new construction and renovation projects.

We recognize that every project has a unique set of circumstances that require innovative design and construction solutions. We develop a customized work plan for each project, working with the owner to determine which services are appropriate to meet their needs.

The goal of Diekema Hamann is to give you the best possible design solution for your program and budget requirements.
