

## PROJECT ARCHITECT

***Integrated Architecture** is a Grand Rapids, Michigan-based architectural design firm established in 1988. Our resume of landmark projects includes award-winning designs that balance highly functional solutions with leading-edge aesthetics, environmental sustainability, flexibility, and value. We offer a dynamic work environment with a collaborative and creative team and diverse project types.*

Integrated Architecture is currently looking for a Project Architect to join our team. The ideal candidate will hold competent knowledge of all aspects of building systems including architectural, structural, mechanical, and electrical engineering. They must have full ability to facilitate the development and integrated documentation to help produce the successful completion of a fully integrated building. Attention to detail and excellent communication skills are a must. Projects will be in a variety of market sectors, including mixed-use, multi-family, corporate office, religious institutions, higher education, K-12 education, healthcare, sporting venues, and residential.

IA is seeking candidates that are **licensed professionals with five (5) or more years of experience**. Excellent communicator, strong professional and leadership skills are a must.

### **Required Qualifications**

- 5+ years' experience
- Licensed (completion of ARE)
- Professional Skills
- Strong Leadership Skills

Command of current graphic, design, and production technology, including Revit, AutoCAD, and/or Microstation

Qualified applicants with diverse backgrounds are encouraged to apply. Salary and benefits package is commensurate with qualifications and experience. Integrated Architecture is an Equal Opportunity Employer.
