

Gresham Smith

Architect - Industrial Market

Why Gresham Smith:

We are a creative team of architecture, engineering and design professionals who serve both public and private sector clients. Together, we share one Core Purpose: To plan, design, and consult to create healthy and thriving communities. Our offices are full of genuine, fun, and down-to-earth people who believe in fostering an inclusive culture where all employees feel they belong. Loving where you work, who you're working with, and what you're working on is important to us, which is why we put our people first—they're at the heart of everything we do. From professional growth and development support and opportunities to give back to your community, to flexible work schedules and competitive benefits, we have a genuine interest in the whole you. So, if you're just as passionate about what you do as we are, then we'd love to hear from you!

Consistently ranked in the Top 10 in the Industrial Sector by Building Design + Construction, Gresham Smith is a growing architectural, engineering and program management firm with 25 offices throughout the US. Join us and you'll work on some of the most dynamic and diverse projects for some of the world's largest clients in industries such as EV battery, automotive, food + beverage, advanced manufacturing, data centers, aerospace + defense, consumer products, tire + rubber, and metals. You'll see firsthand our commitment to our employees recognized by our "Best Firm to Work For" awards and our overall 94% employee retention rate.

Our carefully selected team is what sets us apart from other firms. We are driven to provide the best environment for our employees – latest technology, thorough training, easy access to leadership, and a comprehensive benefit package that is sure to impress. We empower our employees to strike a total life balance by offering flexible schedules and hybrid work arrangements. Clients and partners regard us as innovators who are always pushing for creative and comprehensive solutions that optimize the bottom line, and a passion for genuine client service.

The Industrial Market is looking for a talented and experienced **Architect** to join our team and help grow our new Southfield office in the Detroit Metropolitan area! The Architect would require the ability to work on large industrial, manufacturing, and/or commercial projects.

[Please Apply Here](#) and include a portfolio of your work samples, including conceptual sketches or diagrams, along with a resume/CV in your online application to be considered!

Responsibilities:

- Perform work on all phases of various architectural projects including design development, preparation of presentation drawings and specifications, design review, coordination, and correlation of construction drawings.
- Prepare schematics, design development, and construction documents.
- Develop, modify, and review production drawings and edit project narratives and specifications.
- Research materials to determine the appropriate selection for the project.
- Plan, coordinate, and administer projects from the initial programming stages all the way through to construction administration.
- Review construction submittals and assist the project manager in construction administration.
- Analyze client problems and develop architectural solutions to those problems.

Gresham Smith

Minimum Qualifications:

- Bachelor's/Master's degree in Architecture. An architectural license is required.
