

Are you stuck in rut at your current job? Do you crave a new challenge? Are you a creative, out of the box thinker who pays attention to detail and works well under pressure? Would you rather be part of a smaller, highly creative team? Edge Design Associates is the place!

In a small firm, everyone wears multiple hats. Our tasks and challenges are different every day. We value our team members and are committed to developing well rounded architects.

Position Description: Architectural Staff Level 2 - Professional degree in architecture, plus at least six years of related experience. Responsible for specific technical design aspects of an assigned major project, including investigation, evaluation, and recommendation of design solutions that best meets the client's needs. Provides professional architectural consultation in the planning, design, and coordination of large complex projects. Independently applies advanced architectural concepts and designs. Carries out complex or novel assignments requiring the development of new or improved techniques and procedures. May provide technical guidance to less experienced architects/architectural staff. Mastery of Revit is a must, with a working knowledge of Autodesk products, Sketch Up, Adobe Suite and MS Office.
